

Results of Smokefree Survey

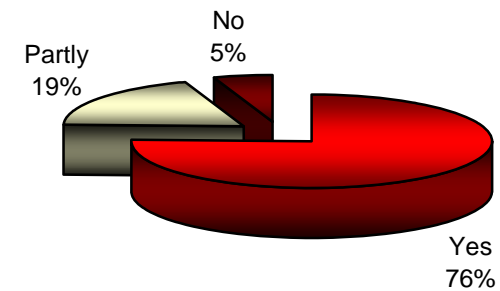

A survey was sent to over 4,000 businesses in Wealden in February of this year to determine how many were already smoke free and how many were aware of the new legislation being introduced in July 2007. The survey provided us with some baseline data with which to make a comparison once the new legislation has been put in place.

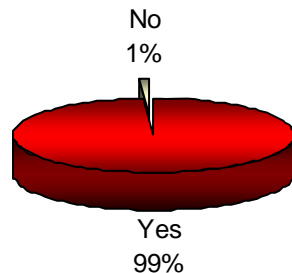

Number of Employees

Are the Premises Currently Smokefree?

Are Businesses Aware of the Change in the Law?

Are Work Vehicles Currently Smokefree?
